

## Declaration of Compliance to ASTM F2506-26

Applicability :

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Range of Propellers | <b>DURANDAL</b>                                                           |
| Type                | Ground Adjustable Pitch                                                   |
| Material            | Carbon with Titanium leading edge                                         |
| Number of Blades    | 2, 3, 4, 5                                                                |
| Diameters           | From 100 cm to 210 cm (each 5 cm)                                         |
| For engines         | Rotax 912, 912S, 912iS, 914, 915iS, 916iS<br>and other gear-drive engines |
| Rotation sense      | CW                                                                        |

Declaration :

We hereby declare that the propeller mentioned above complies to ASTM F2506-26. The propeller is produced according to our quality system ensuring conformity with design data.

Refer to appropriate documentation for installation and maintenance instructions of the propeller.
