

**Important Information**

Affected Propellers: "Durandal" series

Reason: Part numbering system has changed over time and may introduce some misunderstanding.

Description: The "Durandal" series are tractive, ground adjustable pitch propellers. "Durandal" is a family name of propellers including multiple hub and blade combinations. In 2020 an evolution of the propeller series was introduced as well a new part numbering system. A cross reference list is indicated in the following table:

Commercial name: DURANDAL (V12)		Commercial name: DURANDAL (V20)
2012-2019 Previous P/N		From 2019-2020 actual P/N
-	Diameter range (cm)	
DU 80 S DU 100 S	155 - 160	DUR-3-155-C4-T DUR-3-160-C4-T
DU 80 M or DU 80 MT DU 100 M or DU 100 MT	165 - 170	DUR-3-165-C4-T DUR-3-170-C4-T
DU 80 L DU 100 L or DU 100 LT	175 - 180	DUR-3-175-C4-T DUR-3-180-C4-T
DU 100 XL	185 - 190	DUR-3-185-C4-T DUR-3-190-C4-T

Action: Use the appropriate part number and refer to appropriate manuals and documents.
